

CONTENTS

VOLUME 10 (1970)

Sensitivity of <i>Salmonella typhimurium</i> recombinationless (<i>rec</i>) mutants to visible and near-visible light by A. EISENSTARK (Manhattan, Kan.) (Rec'd February 26th, 1970)	1-6
Solubilization of DNA in <i>Bacillus subtilis</i> during recovery from UV-irradiation by HARVARD REITER (Manhattan, Kan.) (Rec'd February 16th, 1970)	7-10
The mutagenic activity of ICR-170 in <i>Saccharomyces cerevisiae</i> by D. J. BRUSICK (Normal, Ill.) (Rec'd February 23rd, 1970)	11-19
Survival of <i>uvrB</i> and <i>uvrC</i> mutants of <i>Aspergillus nidulans</i> after UV-irradiation by G. J. O. JANSEN (Utrecht, The Netherlands) (Rec'd February 19th, 1970)	21-32
Abnormal frequencies of spontaneous mitotic recombination in <i>uvrB</i> and <i>uvrC</i> mutants of <i>Aspergillus nidulans</i> by G. J. O. JANSEN (Utrecht, The Netherlands) (Rec'd February 19th, 1970)	33-41
The influence of pH on the mutagenic effectiveness of nitroso compounds in <i>Arabidopsis</i> by J. VELEMINSKÝ AND T. GICHNER (Prague, Czechoslovakia) (Rec'd January 8th, 1970)	43-52
Induced recessive lethals in the ring X-chromosome of <i>Drosophila</i> by RAPHAEL FALK (Jerusalem, Israel) (Rec'd February 2nd, 1970)	53-60
Induction of deletions in X-chromosomes of <i>Drosophila</i> by RAPHAEL FALK (Jerusalem, Israel) (Rec'd February 2nd, 1970)	61-66
Effects of post-treatment with caffeine on the sensitivity of ultraviolet light irradiation of two lines of HeLa cells by RAY WILKINSON, J. KIEFER AND A. H. W. NIAS (Manchester, Great Britain) (Rec'd February 28th, 1970)	67-72
Nitrosoguanidine-induced gene conversion during growth and amino acid starvation in <i>Saccharomyces cerevisiae</i> by M. J. BUETTNER AND L. W. PARKS (Corvallis, Oregon) (Rec'd February 17th, 1970)	73-76
Induced systematic mutations in <i>Sorghum</i> by K. SREE RAMULU (Coimbatore, India) (Rec'd April 16th, 1970)	77-80
Mutagen-induced variability in protein characters in <i>Oryza sativa</i> by E. A. SIDDIQ, A. K. KAUL, R. P. PURI, V. P. SINGH AND M. S. SWAMINATHAN (New Delhi, India) (Rec'd April 8th, 1970)	81-84
Action of <i>N</i> -methyl- <i>N'</i> -nitro- <i>N</i> -nitrosoguanidine on transforming DNA of <i>Bacillus subtilis</i> by HUBERT KOLB AND FRITZ KAUDEWITZ (Munich, Germany) (Rec'd December 3rd, 1969)	85-90
Studies on the mutability of <i>Escherichia coli</i> K12 I. Suppression and high spontaneous mutation in a threonine auxotroph by T. KADA (Mishima, Japan) (Rec'd December 8th, 1969)	91-102
Studies on the mutability of <i>Escherichia coli</i> K12 II. Modification of radiation sensitivity by reversions in a threonine auxotroph by T. KADA (Mishima, Japan) (Rec'd December 8th, 1969)	103-109

Recessive lethals induced by nitrous acid in <i>Aspergillus nidulans</i> by J. L. AZEVEDO (Sao Paulo, Brazil) (Rec'd January 27th, 1970)	111-117
The activity of <i>N</i> -nitroso- <i>N</i> -methylurethane on chromosomes of barley by K. GECHIEFF AND HR. NICOLOFF (Sofia, Bulgaria) (Rec'd February 13th, 1970)	119-123
Nondisjunction induced by X-rays in oocytes of <i>Drosophila melanogaster</i> by H. TRAUT (Münster, Germany) (Rec'd March 12th, 1970)	125-132
X-Ray-induced dominant lethal mutations in male guinea-pigs, hamsters and rabbits by MARY F. LYON (Harwell, Berks., Great Britain) (Rec'd February 9th, 1970)	133-140
Mutagenesis of cultured mammalian cells by X-radiation and ultraviolet light by B. A. BRIDGES AND JEAN HUCKLE (Harwell, Didcot, Berks., Great Britain) (Rec'd April 23rd, 1970)	141-151
Protection against lethal effects of ultraviolet light on <i>Escherichia coli</i> by capsular polysaccharide by JOHN DONCH AND JOSEPH GREENBERG (Palo Alto, Calif.) (Rec'd April 8th, 1970)	153-155
The resistance of mature oocytes of <i>Drosophila melanogaster</i> to the induction of nondisjunction by X-rays by H. TRAUT (Münster, Germany) (Rec'd April 10th, 1970)	156-158
Ultraviolet-microscopical studies on achromatic lesions ("gaps") induced by X-rays in the chromosomes of <i>Vicia faba</i> by W. SCHEID AND H. TRAUT (Münster, Germany) (Rec'd May 1st, 1970)	159-161
Intrachromosomal clustering of chromatid aberrations induced by maleic hydrazide and ethyl alcohol: studies with a new karyotype of <i>Vicia faba</i> by R. RIEGER AND A. MICHAELIS (Gatersleben, Germany, D.D.R.) (Rec'd April 27th, 1970)	162-164
Factors modifying the biological effectiveness of a nitrogen mustard by MAHER M. NAWAR, C. F. KONZAK AND R. A. NILAN (Pullman, Wash.) (Rec'd May 11th, 1970)	165-167
Repair and mutation in microorganisms by CHARLOTTE AUERBACH (Edinburg, Great Britain) (Rec'd June 29th, 1970)	168
Reaction rates and biological action of <i>N</i> -methyl- and <i>N</i> -ethyl- <i>N</i> -nitrosourea by J. VELEMÍNSKÝ (Prague, Czechoslovakia), S. OSTERMAN-GOLKAR AND L. EHRENBERG (Stockholm, Sweden) (Rec'd April 14th, 1970)	169-174
The frequency of reverse mutation at the XDH loci of <i>Aspergillus nidulans</i> by M. JENNIFER HARTLEY (Cambridge, Great Britain) (Rec'd May 11th, 1970)	175-183
Induction of chromosome aberrations by X-rays and chemical mutagens in a desynaptic mutant and in wild-type barley by Z. SWIETLINSKA AND H. J. EVANS (Aberdeen, Great Britain) (Rec'd April 16th, 1970)	185-196
Sensitivity and induction of mutations in Sorghum by K. SREE RAMULU (Coimbatore, India) (Rec'd January 15th, 1970)	197-205
A cytogenetic study of radiation damage in entire genomes of <i>Drosophila</i> by RUBY M. VALENCIA (Oak Ridge, Tenn., Madison, Wisc., U.S.A. and Buenos Aires, Argentina) (Rec'd April 8th, 1970)	207-219
Interaction of mutational lesions induced by ethyl methanesulphonate and γ -rays in males of <i>Drosophila</i> by R. P. SHARMA AND R. PRAKASH GROVER (New Delhi, India) (Rec'd April 16th, 1970)	221-226
Complete and mosaic visible mutations produced by ethyl methanesulphonate in <i>Drosophila melanogaster</i> by N. G. BRINK (Bedford Park, S. Australia) (Rec'd May 12th, 1970)	227-236

- Effect of *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine on the cell cycle and chromosomes of human embryonic lung cell
by FRANCES KELLY AND MARVIN LEGATOR (Washington, D.C., U.S.A.) (Rec'd April 15th, 1970) 237-246
- On the killing and mutagenic action in *E. coli* associated with the Auger effect during ¹²⁵I decay
by G. AHNSTRÖM, L. EHRENBORG, S. HUSSAIN AND A. T. NATARAJAN (Stockholm, Sweden) (Rec'd April 6th, 1970) 247-250
- Mutagenic effect of cycasin in beans (*Phaseolus vulgaris* L.)
by C. C. MOH (Turrialba, Costa Rica) (Rec'd June 1st, 1970) 251-253
- Further observations on embryo-endosperm relations in irradiated water soaked seeds of durum wheat
by C. FLORIS, P. MELETTI AND F. D'AMATO (Pisa, Italy) (Rec'd June 29th, 1970) 253-255
- Remark on the "Tables for determining the statistical significance of mutation frequencies"
by C. AUERBACH (Edinburgh, Great Britain) (Rec'd June 12th, 1970) 256
- Influence of host-cell reactivation and UV dose on formation of pure and mixed clones of c mutants in phage kappa
by R. W. KAPLAN AND HILDE STOYE (Frankfurt/Main, Germany) (Rec'd March 9th, 1970) 257-267
- Genetic effects of LSD-25 on *E. coli*
by EDWIN VANN, CAROL MATLEN AND HAROLD ROSSMOORE (Detroit, Mich, U.S.A.) (Rec'd May 4th, 1970) 269-275
- Analysis of photoenzymatic repair of UV lesions in DNA by single light flashes
V. Determination of the reaction-rate constants in *E. coli* cells
by WALTER HARM (Dallas, Texas, U.S.A.) (Rec'd June 16th, 1970) 277-290
- Analysis of photoenzymatic repair of UV lesions in DNA by single light flashes
VI. Rate constants for enzyme-substrate binding *in vitro* between yeast photoreactivating enzyme and ultraviolet lesions in Haemophilus transforming DNA
by HELGA HARM AND CLAUD S. RUPERT (Dallas, Texas, U.S.A.) (Rec'd June 16th, 1970) 291-306
- Analysis of photoenzymatic repair of UV lesions in DNA by single light flashes
VII. Photolysis of enzyme-substrate complexes *in vitro*
by HELGA HARM AND CLAUD S. RUPERT (Dallas, Texas, U.S.A.) (Rec'd June 16th, 1970) 307-318
- Analysis of photoenzymatic repair of UV lesions in DNA by single light flashes
VIII. Inhibition of photoenzymatic repair of UV lesions in *E. coli* DNA by caffeine
by WALTER HARM (Dallas, Texas, U.S.A.) (Rec'd June 16th, 1970) 319-333
- The mutagenic effect of ⁹⁰Sr in barley
by D. LINDGREN, G. ERIKSSON AND L. EHRENBORG (Stockholm, Sweden) (Rec'd June 16th, 1970) 335-351
- The genetics of a mutator gene in *Drosophila melanogaster*
by M. M. GREEN (Davis, Calif., U.S.A.) (Rec'd June 12th, 1970) 353-363
- Fate and metabolism of some mutagenic alkylating agents in the mouse
I. Ethyl methanesulfonate and methyl methanesulfonate at sublethal dose in hybrid males
by R. B. CUMMING AND MARVA F. WALTON (Oak Ridge, Tenn., U.S.A.) (Rec'd April 21st, 1970) 365-377
- Unscheduled DNA synthesis at low X-ray doses
by P. SIEGLER AND A. NORMAN (Los Angeles, Calif., U.S.A.) (Rec'd March 17th, 1970) 379-387
- DNA repair and chromatid anomalies in mammalian cells exposed to 4-nitroquinoline 1-oxide
by H. F. STICH AND R. H. C. SAN (Vancouver, Canada) (Rec'd May 11th, 1970) 389-404

On the "tertiary" structure of chromosomes by SHELDON WOLFF (San Francisco, Calif., U.S.A.) (Rec'd May 20th, 1970)	405-414
UV-sensitivity of the wild-type and different UVS mutants of <i>Schizosaccharomyces pompe</i> . Influence of growth stages and DNA content of the cells by F. FABRE (Orsay, France) (Rec'd July 23rd, 1970)	415-426
Ultraviolet-sensitive mutants of <i>Streptomyces coelicolor</i> I. Phenotypic characterisation by RICHARD J. HAROLD AND DAVID A. HOPWOOD (Norwich, Great Britain) (Rec'd May 20th, 1970)	427-438
Ultraviolet-sensitive mutants of <i>Streptomyces coelicolor</i> II. Genetics by RICHARD J. HAROLD AND DAVID A. HOPWOOD (Norwich, Great Britain) (Rec'd May 20th, 1970)	439-448
Radiation dose fractionation, mitotic index, and multiple fixation studies on chromosome aberrations in <i>Vicia faba</i> by MORTON W. MILLER AND JOYCE D. COLAIACE (Rochester, N.Y., U.S.A.) (Rec'd June 23rd, 1970)	449-462
Investigations on radiosensitive and radioresistant populations of <i>Drosophila melanogaster</i> I. Decreased radiosensitivity in stage-7 oocytes of the irradiated population RÖ I by H. NÖTHEL (Berlin, W. Germany) (Rec'd March 13th, 1970)	463-474
Induction by X-rays of isochromosomes in the germ cells of <i>Drosophila melanogaster</i> males. Evidence for nuclear selection in embryogenesis by B. LEIGH AND F. H. SOBELS (Leiden, The Netherlands) (Rec'd June 8th, 1970)	475-487
Genetic analysis of the <i>dumpy</i> region in <i>Drosophila</i> : Its multigenic composition by DALE GRACE (Stony Brook, Long Island, N.Y., U.S.A.) (Rec'd July 27th, 1970)	489-496
Dose-response curve for the yield of translocations in mouse spermatogonia after repeated small radiation dose by MARY F. LYON, RITA J. S. PHILLIPS AND P. GLENISTER (Harwell, Berks., Great Britain) (Rec'd July 6th, 1970)	497-501
Mutagenesis and cell interactions—Site of Y-chromosome function in <i>Drosophila melanogaster</i> by JOHN H. WILLIAMSON (Calgary, Alberta, Canada) (Rec'd July 20th, 1970)	503-506
Mapping of the <i>uvr</i> gene of <i>Salmonella typhimurium</i> by I. V. ANDREEVA, A. A. KIRYUSHKINA, V. N. POKROVSKY AND A. G. SKAVRONSKAYA (Moscow, U.S.S.R.) (Rec'd May 28th, 1970)	506-508
Acridine-induced mitotic gene conversion (paramutation) in <i>Saccharomyces cerevisiae</i> . The effect of two different modes of binding to DNA by R. FAHRIG (Freiburg/Br., Germany) (Rec'd July 8th, 1970)	509-514
Nuclear DNA complement in young proembryos of barley by L. W. MERICLE AND R. P. MERICLE (East Lansing, Mich., U.S.A.) (Rec'd June 15th, 1970)	515-518
Hydrazine induced breaks in chromosomes of <i>Vicia faba</i> by A. K. GUPTA AND N. S. GROVER (Ludhiana, India) (Rec'd July 14th, 1970)	519-520
On the specificity of UV mutagenesis in <i>E. coli</i> by M. K. CHEUNG AND R. C. BOCKRATH (Indianapolis, Ind., U.S.A.) (Rec'd July 7th, 1970)	521-523
Announcements	524

The interaction between diepoxybutane and ultraviolet light in yeast. II. Experiments with UV-sensitive and resistant strains by B. J. KILBEY (Edinburgh, Great Britain) (Rec'd April 21st, 1970)	525-531
Genetic effects of fungicides by D. SIEBERT, F. K. ZIMMERMANN AND E. LEMPERLE (Freiburg i. Br., Germany) (Rec'd July 23rd, 1970)	533-543
Effect of gamma radiation and alpha particles on gene recombination in <i>Chlamydomonas reinhardtii</i> by C. W. LAWRENCE AND P. D. HOLT (Wantage and Harwell, Great Britain) (Rec'd July 27th, 1970)	545-555
Dose dependence for radiation-induced allelic recombination in <i>Chlamydomonas reinhardtii</i> by C. W. LAWRENCE (Wantage, Great Britain) (Rec'd July 27th, 1970)	557-566
Zur Ursache der unterschiedlichen Strahlenempfindlichkeit verschiedener Kernteilungsstadien in der frühen Furchung von <i>Drosophila melanogaster</i> von BERNHARD E. MATTER (Zürich, Switzerland) (Rec'd June 29th, 1970)	567-582
Cytological analysis of partial and total X-chromosome loss induced by X-rays in oocytes of <i>Drosophila melanogaster</i> by H. TRAUT AND W. SCHEID (Münster, Germany) (Rec'd July 23rd, 1970)	583-589
Induction by 5-bromodeoxyuridine of sex-linked lethal mutations in spermatogenous cells of <i>Drosophila melanogaster</i> by BERWIND P. KAUFMANN AND HELEN GAY (Ann Arbor, Mich., U.S.A.) (Rec'd July 21st, 1970)	591-595
Ethyl methanesulfonate-induced mutants in the Y chromosome of <i>Drosophila melanogaster</i> by JOHN H. WILLIAMSON (Calgary, Alberta, Canada) (Rec'd July 27th, 1970)	597-605
Chromosome aberrations induced by X-ray therapy and myxovirus infection in human peripheral leukocytes by SVANTE STENMAN, STIG NORDLING, LARS R. HOLSTI AND EERO SAKSELA (Helsinki, Finland) (Rec'd March 3rd, 1970)	607-616
Chromosome constitution and its bearing on the chromosomal radiosensitivity in man by M. S. SASAKI, A. TONOMURA AND S. MATSUBARA (Tokyo, Japan) (Rec'd June 30th, 1970)	617-633
Studies on the chromosomes of human lymphocytes treated with diazepam <i>in vitro</i> by G. R. STAIGER (Basle, Switzerland) (Rec'd July 6th, 1970)	635-644
A host-mediated assay for cytogenetic mutagenesis: Preliminary data on the effect of methyl methanesulfonate by J. G. BREWEN, P. NETTESHEIM AND K. P. JONES (Oak Ridge, Tenn.) (Rec'd September 28th, 1970)	645-649
Some characteristic properties concerning <i>Agrobacterium tumefaciens</i> M39 mutant by P. MANIGAULT (Paris, France) (Rec'd July 14th, 1970)	651-652
Comments on the results of the preceding publication of MANIGAULT concerning the <i>Agrobacterium tumefaciens</i> M39 mutant by J. DE LEY AND J. B. VAN DER PLAAT (Ghent, Belgium and Delft, The Netherlands) (Rec'd September 24th, 1970)	653
Author Index, Vol. 10 (1970)	655-656
Subject Index, Vol. 10 (1970)	657-661
Contents, Vol. 10 (1970)	663-667
Errata	668
